

Canvas-Methode

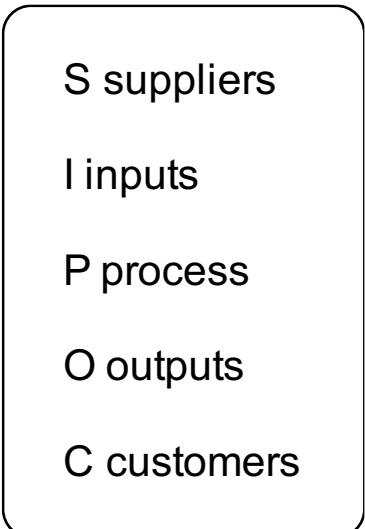

Mit der Canvas-Methode definieren und dokumentieren Teams zentrale Eigenschaften eines Management-Objekts in Form eines vorstrukturierten Plakats. Am weitesten verbreitet sind der Business Model Canvas, der Project Canvas und der Product Canvas.

Process vs. Function

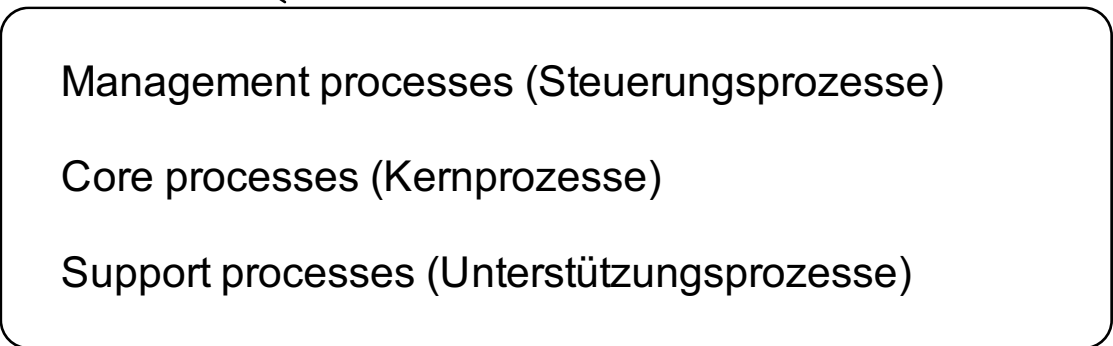

A business process represents a sequence of business behaviors that achieves a specific outcome such as a defined set of products or business services.

A business function is a collection of business behavior based on a chosen set of criteria (typically required business resources and/or competencies), closely aligned to an organization, but not necessarily explicitly governed by the organization.
